**Subject:** EPA consultation process on the use of RESRAD BUILD

Derek –

I'm following up on yesterday's conversation to confirm that we have not yet started the formal EPA HQ consultation process on the use of RESRAD BUILD to evaluate the building remediation goals at HPNS. We appreciate the information you have submitted to date (including the description of RESRAD inputs and assumptions sent last Thursday, 9/12) and expect to start the consultation process as soon as we have a complete package that allows us to understand and hopefully gain confidence in the RESRAD results, including the reasons why the RESRAD results differ from results obtained with EPA's BPRG calculator.

Thanks.
